

Lovea (Copar) Pure Nut & Seed Oils

Lovea Oil	Description	Recommended for:	How to use:
Carrot Oil	<p>Carrot oil is a tan activator and most often used before and after sun bathing. Best applied to moist skin after showering, use before and after sun bathing to help develop a faster & safer tan.</p> <p>Carrot Oil is a golden coloured extract from carrots with extraordinary skin protection and conditioning benefits derived from the high quantities of oil soluble carotenoids that it contains. Carotenoids are anti-oxidants, which are present in a wide range of fruits and vegetables but most abundant in carrots. Carotenoids directly reduce the damaging effects of UV by enhancing the body's immune response to UV exposure.</p> <p>Lovea (Copar) Carrot Oil is made by soaking carrot roots in sunflower oil.</p> <p>This product does not offer any SPF protection, however it is thought that the high level of carotenoids in the oil help the skin tan more safely by protecting it from the free radicals made by exposure to UV light.</p>	<p>Contains carotenoids to activate the tanning process. Can be applied all over body</p>	<p>Body</p> <p>For best results use daily for 1 week prior to sun exposure and then morning and night during your holiday. A bottle will last for approximately 10 days when applied daily all over the body.</p>
Borage Oil	<p>Borage oil is a tried and tested anti-ageing oil which regenerates and restructures the skin, recognised as a natural anti-wrinkle treatment which brings back softness, suppleness and tone to the skin.</p> <p>Applied daily to the face and neck by gentle massaging, it will reduce the appearance of fine lines & wrinkles and bring life back to dull skin. Recommended for dry, tired or lifeless skin.</p> <p>Lovea (Copar) Borage Oil is produced from the first cold press extraction of borage seeds.</p>	<p>Face & Neck - Apply on its own or mix with your favourite moisturiser for an extra special anti-oxidant boost</p>	<p>Face</p> <p>Massage a few drops into the skin after cleansing or mix with your favourite moisturiser for an extra special anti-oxidant boost! Works well with a facial mist.</p>
Argan Oil	<p>Argan Oil is rich in Essential Fatty Acids (often referred to as Vit F) and Vit E, it is the undisputed anti-wrinkle treatment. Used as a hair mask it fortifies the hair shaft and brings life back to dull hair.</p> <p>Argan Oil or Moroccan Oil has been used for centuries by local tribes in North Africa but only recently has it come to the attention of cosmetic scientists. Research shows that the oil is packed with beautifying ingredients like vitamin E, phenols, carotenes and essential fatty acids, in fact it is over 70% oleic & linoleum acids. These essential fatty acids are also known as the skin vitamin - Vitamin F, and just like other vitamins the body is unable to produce its own Vitamin F.</p> <p>Argan oil has a strong aroma which fades quickly, the smell reminds most people of fresh olive stones.</p> <p>Argan oil increases skin elasticity, nourishes and helps normalise the skin. Argan Oil is a 100% natural skin food and regular use will keep your skin in tip top condition.</p>	<p>Top to toe miracle oil even works on the hair!</p>	<p>Face, Body & Hair</p> <p>Best applied to moist skin straight after bathing or showering. Add a few drops to your favourite moisturiser for an extra anti-oxidant boost! As a hair mask comb through dry or towel dry hair. Can be washed out after 5 mins with Lovea Argan Oil Shampoo or left in until next wash.</p>
Jojoba Oil	<p>Jojoba oil is very similar to the skin's sebum which means it soaks into the skin quickly. It regulates the hydration of the skin and re-balances oil levels, Jojoba oil is an emollient which stops the skin from drying-out.</p> <p>Jojoba oil can also help to soothe and repair skin that has been affected by psoriasis or eczema. It also works well as an all over body moisturiser and make-up remover. To prevent split ends use on the tips of hair to add extra moisturising protection.</p> <p>Lovea (Copar) Jojoba Oil is made from the first cold pressing of the jojoba seeds.</p>	<p>All over body oil. Good for eczema & psoriasis and ends of long hair. Good make-up remover!</p>	<p>Face, Body & Hair</p> <p>For best results apply to moist skin after bathing or showering. To remove make-up apply direct to the skin and wipe off with a moist cotton pad.</p>
Sweet Almond Oil	<p>Sweet almond oil can be used on the face & body, it softens skin and soothes skin irritations. It is ideal for treating stretch marks, cracks, chapped skin, itches, burns...</p> <p>Almond Oil is ideal for shaving. Apply to wet skin with warm water and shave as usual. Makes shaving in the bath & shower very easy! It can also be used as a make-up remover and is ideal for delicate baby skin.</p> <p>Sweet Almond Oil is rich in vitamins A and E, it nourishes and softens delicate skin.</p> <p>Lovea (Copar) Sweet Almond Oil is extracted from the first cold pressing of certified organic almonds.</p>	<p>Great for shaving & all over body moisturiser. Very rich oil, best applied sparingly to damp/wet skin</p>	<p>Face & Body</p> <p>Almond Oil is very rich and is best applied to skin straight after bathing or showering. Applying to wet skin helps the oil spread further and also locks in moisture. Works well on the face in combination with a facial mist. Can be used in the shower or bath to wet shave.</p>

Lovea (Copar) oils are supplied in an airtight glass bottle with a sealed pump dispenser at the top. Prior to shipping we store bottles in dark boxes to keep the oils fresh and preserve the anti-oxidants. Once opened we recommend the oil is stored away from direct sunshine and heat sources.
