

Lovea Certified Organic Sunscreen

Information available online at: www.australisdistribution.com/loveasun.html

The Lovea range of sunscreens are certified organic and free from nano-particles. The range uses Tahitian Monoi Oil which is a natural low level sunscreen along with stronger mineral blocks like zinc oxide.

About Lovea Sunscreens

Lovea Organic Sun Care is an Ecocert / Cosmebio certified organic sunscreen. The creams are lightly scented with natural essential oils and provide UVA & UVB protection. The SPF 15 provides medium UVA/UVB protection whilst the SPF30 & SPF50 provide high UVA / UVB protection. The formula is water resistant and applies without white streaks.

Lovea sunscreen does not contain chemical UV filters or nano-particles and it is suitable for vegans.

Lovea was the first organic sunscreen to meet Eco-cert's organic standards in 2008. The range retails from £8.49 to £15.99

Personalise your promotions

Use your rebate of up to 15% to choose extra product free of charge. The free product can be used to increase your margin or to make up exclusive promotions tailored to your store. ➔

There are 8 products in the range which includes tanning oils, after suns and sunscreens up to SPF 50. The kids range is co-promoted with Disney and the bottles feature the latest Disney characters.
